Projects:

Employee Management System | Java, Spring Boot, MySQL, HTML, CSS, JavaScript

- Developed a full-stack web application to manage employee records, including attendance, roles, and salaries.
- Designed RESTful APIs in Spring Boot and implemented CRUD operations to handle employee data securely and efficiently.
- Built a responsive UI with HTML/CSS/JS, enabling HR teams to easily add, update, and track employee information in real time.

OTT Streaming Platform | HTML, CSS, JavaScript, React.js, API Integration

- Created a dynamic OTT web platform featuring trending movies, series, and category-based content filtering.
- Integrated third-party APIs to fetch real-time media data, improving the browsing experience with seamless navigation.
- Implemented user-friendly search, watchlist, and content-details pages with a responsive UI across all screen sizes.

E-commerce Website (Figma to React Conversion) | React.js, HTML, CSS, JavaScript, Bootstrap

- Converted a high-fidelity Figma design into a fully responsive, pixel-perfect React-based e-commerce frontend.
- Implemented multi-page navigation (Home, Products, Product Details, Cart) using React Router for smooth user experience.
- Built reusable UI components and responsive layouts to ensure consistent design across all screen sizes and devices.

Leadership / Extracurricular

- **Hackathon Participation:** Took part in multiple national- and college-level hackathons, gaining hands-on experience in solving real-world problems under time constraints.
- **Event Volunteer, Technical Event management:** Assisted in organizing and managing the Alumni Meetup Event at IIMT, facilitating smooth logistics and guest coordination.
